

CompTIA Network+

Training Course

WELN

CompTIA Network+

Course Description:

This course and qualification helps learners develop their career in IT infrastructure building knowledge and skills covering troubleshooting, configuring, and managing networks. It is recommended that learners have previously attained CompTIA A+ Certification and have at least 9 to 12 months of networking experience.

On completion of this course, learners will be ready to take the CompTIA exam N10-007, leading to CompTIA Network+ certification.

Learning Outcomes:

On completion of this course, learners will be able to:

Design and Implement
Functional Networks

Identify Benefits and Drawbacks of
Existing Network Configurations

Implement Network Security,
Standards and Protocols

Configure, Manage and Maintain Essential Network
Devices and use Devices such as Switches and Routers to
Segment Network Traffic and Create Resilient Networks

Troubleshoot Network Problems and Support the Creation
of Virtualised Networks

Content:

- Critical security concepts
- Working with security practitioners.
- Cloud computing best practices and typical service models
- Coverage of newer hardware and virtualization techniques
- Ensuring network resilience

Course Specifics:

Price: £2250 per person (ex. VAT)

Duration: 5 day course

WDR provide **a week** of intensive, supported learning. Each skill is broken down by our **expert tutor** and will provide you with a highly interactive learning experience in our **Horsham Training Centre**, supported with mock tests, eBooks (bring a memory stick), remote support and guidance before entry to the exam.

For larger groups, WDR can arrange training at your premises or a local venue. **Please speak to our team for more details.**
