

Operating System Fundamentals

Microsoft Technology Associate

WETA

Microsoft Technology Associate

Operating System Fundamentals

Course Description:

This course has been designed to build essential knowledge and skills relating to operating systems included the latest version of Windows 10. Completion of this course will prepare learners for the Microsoft Technology Associate Exam 98-349. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

On completion of this course, learners will be ready to take the Microsoft Technology Associate exam 98-349, leading to MTA Operating System Fundamentals certification

Learning Outcomes:

On completion of this course, learners will be able to:

Understand Operating Systems and their Configurations

Install, Maintain and Upgrade Client Systems

Manage Applications, Devices, Files and Folders

Content:

- Configuration:
 1. Control Panel Options
 2. Desktop Settings
