

A close-up photograph of a network switch or patch panel. Several white Ethernet cables are plugged into the ports. The switch is mounted on a metal rack. A blue light is visible on the left side of the switch. The background is blurred, showing more of the server rack.

Windows Server Administration Fundamentals

Microsoft Technology Associate

WCLR

Microsoft Technology Associate

Windows Server Administration Fundamentals

Course Description:

This course is designed to enable learners to develop essential knowledge and skills surrounding server administration concepts. It is recommended that learners become familiar with the concepts and the technologies described here by taking relevant training courses. Learners are expected to have some hands-on experience with Windows Server, Windows-based networking, Active Directory, account management, and system recovery tools and concepts.

On completion of this course, learners will be ready to take the Microsoft Technology Associate exam 98-365, leading to MTA Windows Server Administration Fundamentals certification.

Learning Outcomes:

On completion of this course, learners will be able to:

Implement Server Installation and Configuration

Understand the Use of Active Directory

Evaluate Server Performance Management and Maintenance

Content:

- Device drivers, services and server installation options
- Identify application servers, understand Web services, remote access, the file and print services and server virtualization
- Understand accounts and groups, organizational units and containers, Active Directory infrastructure and group policy
- Identify storage technologies and their typical usage scenarios, RAID redundancy and disk types
- Identify major server hardware components, performance monitoring, logs, alerts and Event Viewer
- Identify steps in the start-up process, understand business continuity, updates and troubleshooting methodology

Course Specifics:

Price: £2250 per person (ex. VAT)

Duration: 5 day course

WDR provide **a week** of intensive, supported learning. Each skill is broken down by our **expert tutor** and will provide you with a highly interactive learning experience in our **Horsham Training Centre**, supported with mock tests, eBooks (bring a memory stick), remote support and guidance before entry to the exam.

For larger groups, WDR can arrange training at your premises or a local venue. **Please speak to our team for more details.**
