Digital Learning Solutions

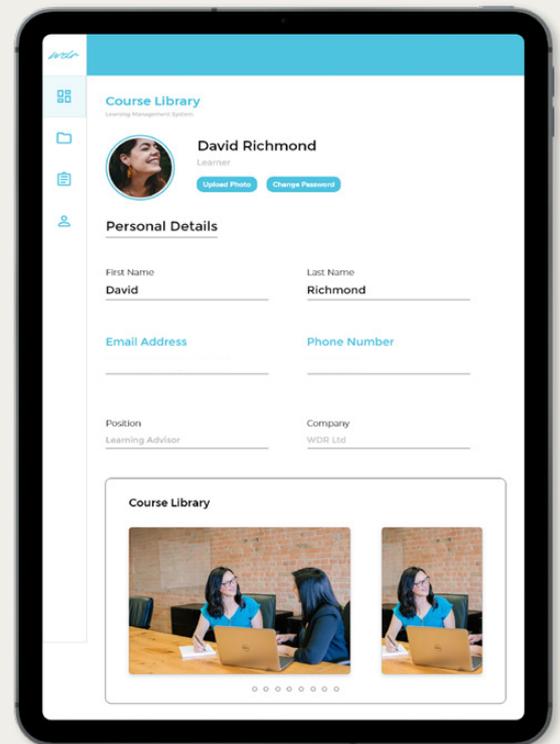

Engaging learning, accessible always & everywhere

WDR Learning Portal

The WDR Learning Portal has been designed to provide users with an intuitive way to access all their learning on the go and businesses with a cost-effective way to easily administer and track every aspect of the learning cycle.

Built on proven technology and using a modular approach, the WDR Learning Portal is highly configurable, meaning it can be tailored to your specification, whether you are just looking for a web-based platform to host your digital content, or a feature-rich Learning Management System (LMS) to manage your broader learning provision.

WDR Learning Portal - Features

Branding

During the set up process, we'll apply your corporate branding to give your portal its own unique look.

Crisp User Interface

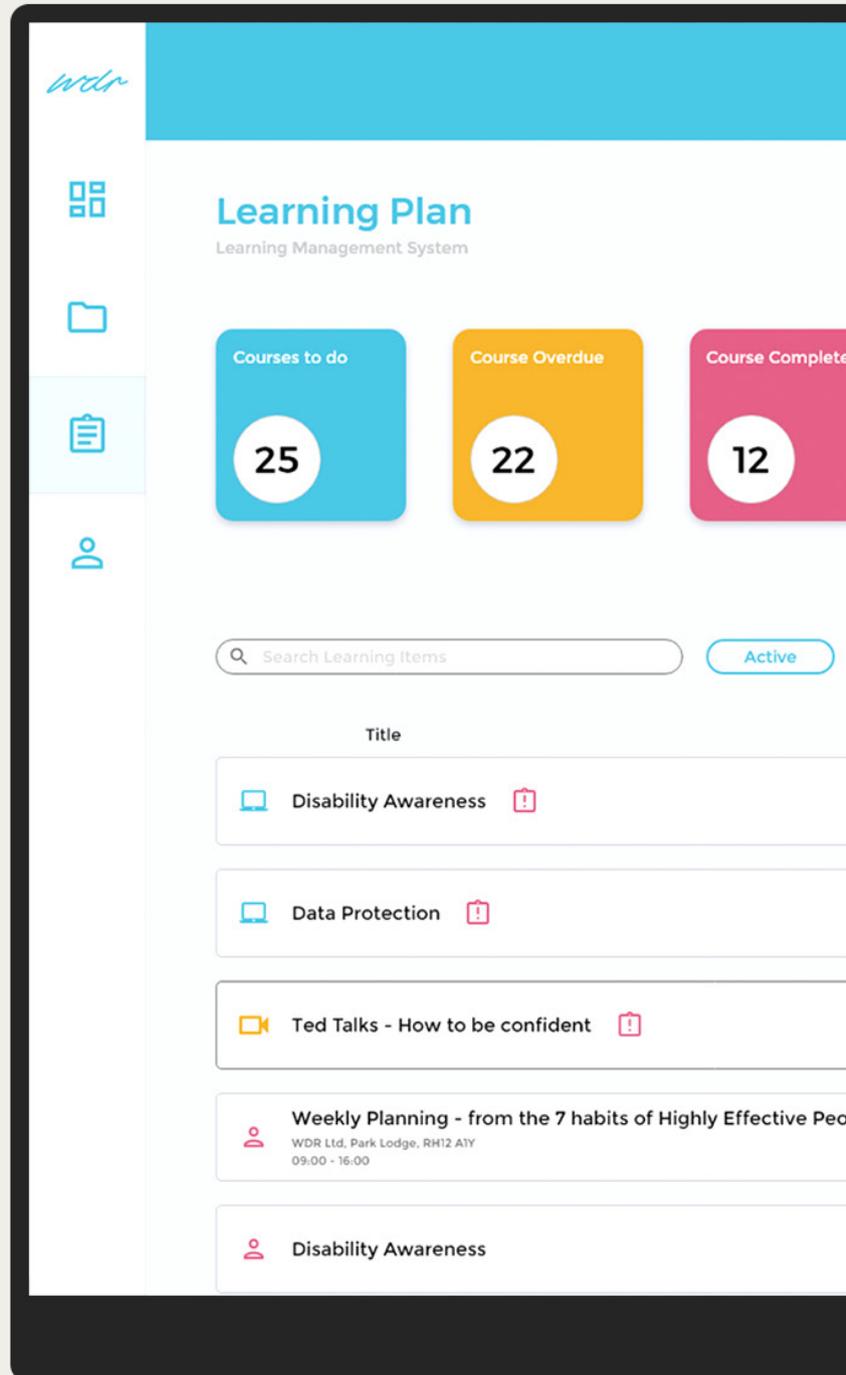

Our interface has been designed to give users a simple and visually pleasing experience, ensuring colleagues will enjoy exploring their learning options on desktops, tablets and mobiles alike, and to keep them coming back for more.

Learner Dashboard

Each user has a Dashboard summarising their learning activities and keeping them up-to-date with all the latest news and alerts.

Course Catalogue

Your portfolio of learning is translated into tiles combining engaging images with everything users need to know, ensuring they are best able to identify the learning items that are most relevant to them and add them to their personal Learning Plan.

WDR Learning Portal - Features

Individual Learning Plans

Learners, line managers and administrators can create individual learning plans based on role, training needs and development aspirations.

Mandatory & Renewable

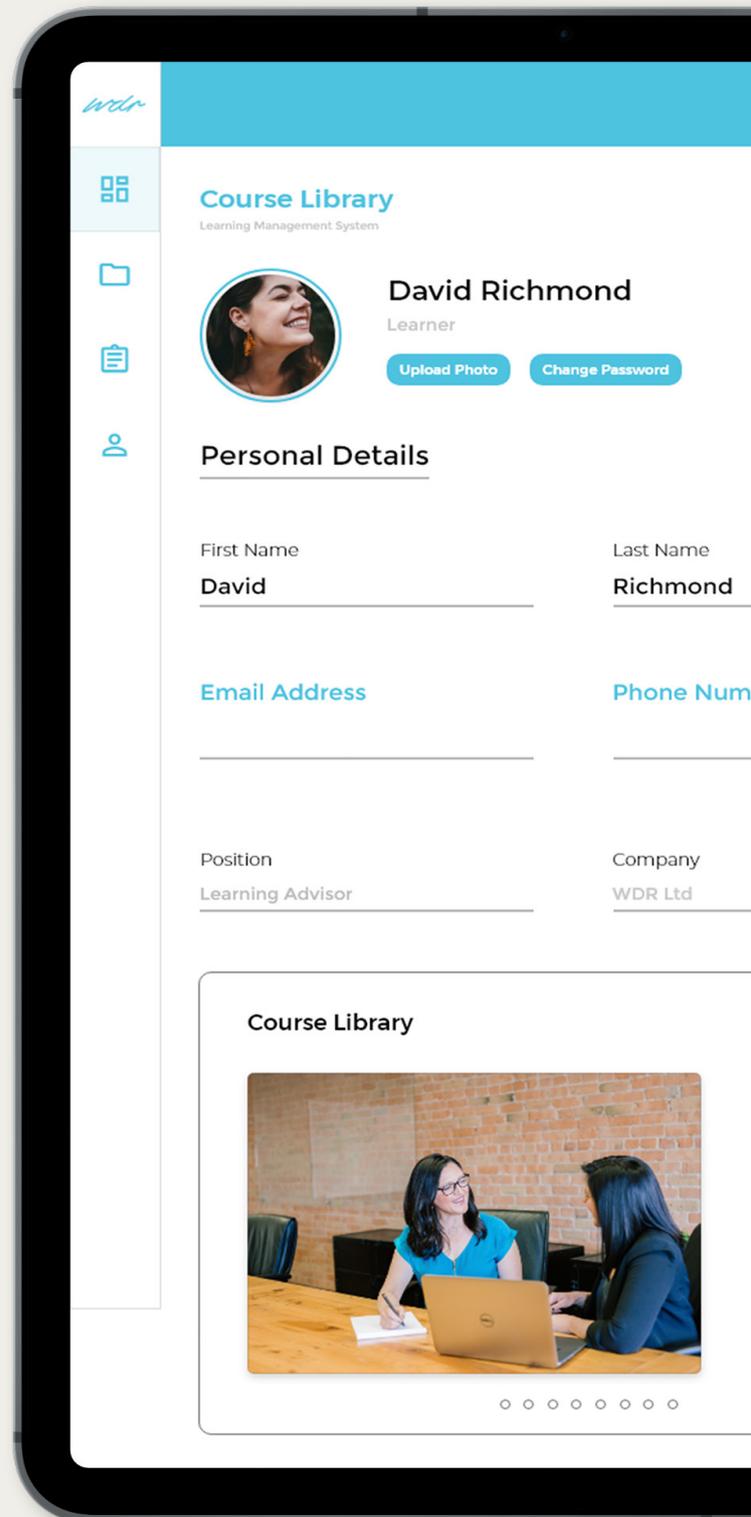

Administrators are able to easily select role specific mandatory and renewable learning items which are then added to each individual's Learning Plan with automatic reminders & reporting for learners, line managers and administration.

Tracking and Reporting

Enhanced functionality for your chosen administrators ensures effective management of both your users and your portfolio of learning items, whilst providing comprehensive tracking and reporting options.

Integration

Designed to enable integration with your HRIS system to automate the management of your people data.

Growing Your eLearning Portfolio

eLearning has become an integral part of the learning and development provision of every business, enabling them to gain a competitive edge by giving their people timely access to learning that is focused on their individual requirements.

WDR – Your Complete eLearning Partner

Streamline your Statutory and Mandatory provision, or enrich your learning portfolio with engaging blended and ‘in the moment’ learning interventions. Our Digital Content team is here to take care of all your eLearning requirements.

Our goal is to help you make the most of your digital content by providing impactful and cost-effective learning experiences. We create self-paced learning that can be used on multiple devices, offering a low-cost solution for businesses looking to maximise accessibility and ensure consistency across their training provision.

All of our content is packaged in a SCORM/Tin Can compliant format, allowing you to decide where you would like to host it and ensuring effective tracking and reporting functionality.

How we can help

01 Choose from our existing portfolio

We have around 35 ready-made courses, all of which can be hosted for you on the WDR Learning Portal, or provided as free-standing modules for you to host on a platform of your choice.

02 Add your own look and feel

Modules can be readily adapted to reflect your company brand guidelines and tailored to your specific requirements.

03 Create your own modules

Whether you are looking for modules packed with animations and rich content, or something a bit more straightforward, our instructional designers will work with you to storyboard and develop bespoke eLearning modules to your specification.

04 Sourcing via our managed learning service

We’ll take the time and effort out of finding eLearning modules from the wider marketplace by taking care of this for you. In the process, we consistently achieve cost savings for our clients.
